PROFESSIONAL EXPERIENCE

Cixcent Technologies Pvt Ltd.

08/2024 – Present

QA Engineer

- Engineered **600+ test cases** (Functional, Regression, Integration, Smoke & Sanity) across ERP and mobile platforms, achieving zero critical-defect escapes to production across 4 consecutive release cycles.
- Owned end-to-end defect lifecycle in **JIRA** — logged, triaged and verified 500+ defects with detailed reproduction steps and priority tagging, reducing average defect resolution time by ~30%.
- Built **Playwright automation scripts** using **Page Object Model (POM)** with reusable page classes, fixtures, and assertions; covered login, cart, checkout, and search flows.
- Conducted **REST API testing via Postman** — validated endpoints, status codes, response schemas, and error scenarios across microservices; saved collections for team reuse.
- Collaborated with Developers, Product Owners, and BAs to review stories, define acceptance criteria, and flag gaps early — reducing mid-sprint rework.
- Participated in all **Agile/Scrum ceremonies** and contributed to sprint retrospectives with QA process improvements.
- Conducted **onboarding and knowledge-transfer sessions** for new QA members on domain workflows, test strategy, and tooling/ Assisting new team members in understanding the product architecture, testing process, and domain workflows.
